In addition, until 40 days after the later of the commencement of the offering and the closing date, an offer or sale of the Notes within the United States by a dealer may violate the registration requirements of the Securities Act if such offer or sale of Notes within the United States by a dealer may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than pursuant to an exemption from registration under the Securities Act.

However, a distributor subject to Directive 2014/65/EU of the Council of 15 May 2014 of the European Parliament and of the Council ("**MiFID II**") is responsible for undertaking its own target market assessment in respect of such Notes (either by adopting or refining the target market assessment) and determining the appropriate distribution channels for such Notes. For the purpose of the MiFID Product Governance rules under the Commission Delegated Directive (EU) 2018/593 of 7 April 2018 supplementing MiFID II (the "**MiFID II Product Governance Rules**"), a determination will be made in relation to each issue as to whether any Dealer participating in the issue of Notes is a manufacturer in respect of such Notes for the purpose of the MiFID II Product Governance Rules.

RISK FACTORS

Risk factors deemed to be of importance for the Group's business and future development and risks relating to the Notes are described below. The risk factors presented below are categorised as "RISKS RELATING TO THE GROUP" or "RISKS RELATING TO THE NOTES" on the basis of whether they pertain to the Group or to the Notes. The risk factors categorised as "RISKS RELATING TO THE GROUP", are categorised as risk factors pertaining to the Group and not as risk factors pertaining to the Issuer, as the major part of the business operations in the Group are conducted by the Issuer's subsidiaries. The materiality of the risk factors is disclosed by the use of a qualitative ordinal scale of low, medium or high. The assessment of the materiality of the risk factors have been based on the probability of their occurrence and the expected magnitude of their negative impact.

RISKS RELATING TO THE GROUP

Risks related to the structure of the Group

Low level risk

Management risk

The Issuer is in a development stage and has only conducted business since the beginning of 2018. The Issuer has a short operating history and is dependent upon its senior management, being Sverker Källgården (CEO), Pia-Lena Olofsson (CFO and Head of IR), Lauri Tiensuu (CIO Finland) and Peter Lövgren (CIO Sweden), for the implementation of its strategy and the operation of its activities. As per the financial year ended 31 December 2020, the Group had six employees and thus, due to the Group's limited number of employees, the Group is dependent on each employee for the Group's business. In addition, the Group will depend on the services and products of certain other consultants, contractors and other service providers in order to successfully pursue the Group's business plan. There is a risk that the Group cannot purchase new management services or other necessary services or products on favourable terms, or at all, which would have an adverse effect on the Group's business, financial condition and the Noteholders' recovery under the Notes.

Risks related to the property industry

Medium level risk

Market risk

Real estate investment risk is linked to the value of the real estate. This risk can thus be defined as those factors that influence property valuations. The main factors are the supply and demand for commercial properties, as well as the yield that investors are willing to accept when purchasing real estate. The real estate market is influenced by the vacancy rate in the market. The vacancy rate is in turn influenced by several factors on both a micro and macro level. Negative changes in the general economic situation, including business and private spending, may adversely affect the demand for commercial premises. The free capacity is also influenced by construction and refurbishment activity. Further, the real estate market is influenced by the demand for the type of real estate that the Group owns, mainly being daily goods and supermarket properties. The type of real estate owned by the Group involves certain risks due to that during certain periods there might be fierce competition for a few real estate objects, which are properties on which it is suitable to have daily goods and supermarket chains as tenants, and it might be difficult for the Group to purchase desired objects at the desired price. In other periods, it might be difficult for the Group to sell real estate objects at the

desired price. A decrease in the value of the Properties would adversely affect the valuation of the Group's property portfolio and hence having a negative impact on the Group's business, financial position and results.

Low level risks

Transaction risk

From time to time the Group evaluates potential property acquisitions that are in line with the Group's strategic objectives and the Group has also made such acquisitions in the past. There is a risk that there are unforeseen costs in recent or future acquisitions due to, including but not limited to, environmental remediation, re-organisation and handling technical issues, official decisions, the occurrence of a dispute related to an acquisition and the condition of a property, which are unknown to the Group and that such unidentified risks will have an adverse effect on the Group's business, earnings or financial position. Recent acquisitions within the Group includes the acquisition in March 2020 of a property portfolio consisting of 111 grocery shops in Sweden from Coop with a total property value of approximately SEK 1,900,000,000 with Coop as anchor tenant. In December 2020, the Group also acquired a property portfolio in Finland consisting of seven properties with Kesko, Tokmanni and S-Group as anchor tenants. The total property value for such acquisition amounted to approximately EUR 102,000,000.

Future acquisitions may also include undertakings by the Group to pay additional purchase price to the sellers, e.g. for remediation costs of contaminated soil. Such additional payments may have an adverse effect on the financial position of the Group.

There is a risk that future acquisition activities will present certain financial, managerial and operational risks, including difficulties when integrating or separating businesses from existing operations and challenges presented by acquisitions which does not achieve rent levels and profitability that justify the investments made by the Group. If the ongoing or future acquisitions are not successfully integrated, there is a risk that the Group's business, financial condition and results of operations will be adversely affected. There is also a risk that future acquisitions will result in the incurrence of debt, contingent liabilities, amortisation costs, impairment of goodwill or restructuring charges, any of which will have an adverse effect in the Group's business, earnings or financial position. Furthermore, pending or planned acquisitions may not be completed for various reasons. If such pending or planned acquisitions are not completed, this may have an adverse effect on the Group's results, which may impact the Issuer's ability to repay the Notes (as applicable).

Property risk and rental income

The Group's business mainly revolves around acquiring, developing, owning, managing and divesting real estate, primarily within the segment daily goods and supermarket properties. The Group is dependent on the returns from the Properties, which in turn will depend largely upon the amount of rental income generated from the Properties, the costs and expenses incurred in the maintenance, renovation, repair and management of the Properties, necessary investments in the Properties and upon changes in their market value. Rental income and the market value for properties are generally affected by overall conditions in the economy, such as growth in gross domestic product, employment trends, inflation and changes of interest rates. Both property values and rental income may also be affected by competition from other property owners, or the perceptions of prospective buyers and/or the attractiveness from tenants, convenience and safety of the Properties. A decrease in the property value and/or rental income may have an adverse effect on the Group's business, earnings or financial position. As per the financial year ended 31 December 2020, the Group's rental income from the Properties amounted to approximately EUR 65,033,000. An increase or a decrease in the rental

income by 5 per cent. would affect the value of the Properties negatively or positively (as applicable) by approximately EUR 3,252,000.

Terminal value risk

Property and property related assets are inherently difficult to appraise due to the individual nature of each property and due to the fact that there is not necessarily a liquid market or clear price mechanism. As the Group has a niched property portfolio strategy, i.e. acquiring, refining and developing properties with daily goods and supermarket chains as tenants, valuations of the Properties may be subject to substantial uncertainties. There is a risk that the estimates resulting from the valuation process will not reflect the actual sales price. Any future property market recession or any future property recession in respect of the type of real estate owned by the Group, would materially adversely affect the value of the Properties and subsequently the Issuer's financial position, its ability to refinance certain or all of its outstanding debts, including the Notes. As per the financial year ended 31 December 2020, the value of the Properties amounted to approximately EUR 1.272,513,550 and an increase or a decrease in the value of the Properties by 5 per cent. would affect the value of the Properties negatively or positively (as applicable) by approximately EUR 63,625,677.

Legal and regulatory risks

The Group's business concept is to acquire, manage and develop properties. Therefore, changes in laws relating to ownership of land could have an adverse effect on the financial condition of the Group. In addition, the Group is subject to various local laws and regulations in both Finland and Sweden. New laws may be introduced which affect environmental planning, land use and/or development regulations. Government authorities at all levels are actively involved in the promulgation and enforcement of regulations relating to taxation, land use and zoning and planning restrictions, environmental protection and safety and other matters. The institution and enforcement of such regulations would have the effect of increasing the expenses and lowering the income or rate of return from the Issuer, as well as adversely affecting the value of the Properties. Government authorities could use the right of expropriation of the Properties if the requirements for expropriations are satisfied. Any expropriation will entitle the Group to compensation but the Group's financial condition may, irrespective of such compensation, be negatively affected.

Operational and maintenance costs

Operational and maintenance costs are material costs for the Group amounting to approximately EUR 10,023,000 as per the financial year ended 31 December 2020. The operational costs mainly consist of costs which are fare related, such as cost for electricity, cleaning, water, heating, construction, utilities and administration expenses. Several of these goods and services can only be bought from a single operator on the market, which may affect the price. The operational costs are also subject to seasonal variations and weather conditions, such as prolonged colder periods resulting in increased costs, as well as other similar unpredictable events entailing increased operational costs in relation to the Group's property portfolio. Further inflation and other index related measures may have a larger impact on operational costs than the Group's earnings which may adversely affect the Group's earning as such cost may not be able to be forwarded to the Group's tenants and customers. Thus, there is a risk that the increase in costs cannot be compensated through regulation in the Lease Agreements, or rental increases through renegotiations of the Lease Agreements, there is a risk that it may have a negative impact on the Group's business, financial position and results. As per the financial year ended 31 December 2020, an increase or a decrease in the operational and maintenance costs relating to the Properties by 5 per cent. would increase or decrease (as applicable) such cost by approximately EUR 501,000.

Coronavirus disease (COVID-19) risks

The 2019 novel coronavirus ("**COVID-19**") outbreak has and is continuing to have an indeterminable adverse impact on the world economy. COVID-19 was reportedly first discovered in Wuhan, Hubei Province, China, in 2019, and the World Health Organization declared COVID-19 a pandemic on 11 March 2020. The COVID-19 outbreak has become a widespread health crisis, which may in turn result in protracted volatility in international markets and/or result in a global recession as a consequence of disruptions to travel and retail segments, tourism, and manufacturing supply chains. The trading price of Notes (as applicable in accordance with the applicable Loan Terms) may therefore be adversely affected by the economic uncertainty caused by COVID-19. Furthermore, there is a risk that the Group's tenants' ability to pay rent will be adversely affected by the COVID-19 outbreak. The initial impact of COVID-19 has been minor on the Group's business. To a minor degree the Group has granted rental reductions to certain minor tenants of the Group, such as restaurants, hair salons and other service stores, due to the impact the COVID-19 crisis has had on such tenants' businesses. During the financial year 2020, the Group granted rental reductions in an aggregate amount of approximately EUR 200,000. Furthermore, there is a risk that the regions in which the Group operates, being Sweden and Finland, may be imposed to tougher restrictions by the relevant authorities and governmental bodies, e.g. travel bans and quarantine. Should such measures restrict the ability of the employees of the Group's tenants to work on the Properties or if it is not possible to secure deliveries of goods to the daily goods stores due to any such restrictions applicable from time to time, there is a risk that these type of restrictions and other measures to limit the transmission of COVID-19 may impact the tenants' operations and their ability to pay rent and thus materially adversely affect the Group's business, financial position and results.

There is also a risk that the COVID-19 outbreak could have a negative effect on the value of the Properties. Any of these factors could have a material adverse effect on the Group's business, financial condition and results of operations. Moreover, due to COVID-19, there is a risk that the Group's tenants may choose not to enter into new leases or renew existing Lease Agreements. There is also a risk that the global downturn could affect the liquidity position of existing tenants, which in turn may require such tenants to postpone rental payments or cause defaults under the Lease Agreements. Accordingly, the COVID-19 crisis' impact on the Group's current and future tenants could lead to increased vacancies and a decrease in rental income for the Group, which would have a negative impact on the Group's business, financial position and results.

Risks related to tenants

Medium level risk

Risk relating to existing and new tenants

The Lease Agreements have been entered into with different tenants with more than 90 per cent. of the Properties anchored by (i) Kesko, (ii) Tokmanni, (iii) S-Group, (iv) Coop, (v) Lidl and (vi) Halpa-Halli making the Group dependable on any of these tenants and their ability to perform their obligations under the Lease Agreements (e.g. service rent). There is a risk that many Properties would become vacant should either of Tokmanni, Kesko, S-Group, Coop, Lidl and Halpa-Halli suffer financial distress. Should either of Tokmanni, Kesko, S-Group, Coop, Lidl or Halpa-Halli be unable to perform their obligations under the Lease Agreements, this would have an adverse effect on the Group's financial condition.

Furthermore, there are certain risks involved with obtaining new tenants. New potential tenants might imply higher counterparty risks for the Group compared to previous tenants. The Group's strategy is to attract tenants with strong creditworthiness and leading market positions and the Group's ability to do so and to successfully negotiate new lease agreements on favourable terms, e.g. the Group's ability to enter into long-term leases, is dependent upon the general condition of the real estate

market at such time. Further, the premises owned by the Group may have to be renovated and adjusted to serve a new tenant, or several tenants instead of a few tenants, which could result in increased costs for the Group. Should such risks materialise, this would affect the Group's financial condition negatively.

Missing and terminated lease security

Several lease security under the Lease Agreements are either missing or have expired, and some Lease Agreements do not require lease security to be provided. Therefore, the relevant Group Companies may not have security for breaches by tenants under certain Lease Agreements. As a consequence, to the extent no lease security is valid or has been provided in relation to a Lease Agreement, the Group Companies acting as landlords under the Lease Agreements may incur unforeseen loss due to a tenant's inability or lack of willingness to fulfil its obligations, such as payment of rent, set out in a Lease Agreement. This, in turn, would have a negative effect on the Group's liquidity and ability to pay interest under the Notes.

Risks related to environmental matters

Low level risks

Environmental and technical risk

According to the polluter pays-principle established under Finnish and Swedish environmental law, the operator who has caused pollution will be responsible for remediation. However, should it not be possible to locate the polluter or if the polluter cannot be held responsible, the property owner can secondarily be held responsible for remediation and associated costs. Accordingly, there is a risk that the members of the Group in their capacity as property owners may be held responsible for costly remediation works. A change of the purpose of use of the Properties to a more sensitive use, if any, would increase such risk. The allocation of costs relating to soil and groundwater contamination can be agreed otherwise between the respective parties, which is the case in respect of most Properties. Therefore, in certain cases, the risk of the members of the Group is more severe than solely under applicable laws.

Some Properties or areas adjacent to the Properties are included in the Finnish national soil database system (Fi. *Maaperän tilan tietojärjestelmä*) (MATTI) or the Swedish MIFO register (Sw. *Metodik för Inventering av Förorenade Områden*), which lists certain contaminated and potentially contaminated land areas in Finland and Sweden, respectively. Further, there is or has been contamination, or there is a known risk of contamination, in respect of some Properties or areas adjacent to the Properties, e.g. in respect of the Properties identified in the risk "*Risks relating to contaminated soil*". If authorities require remediation of contaminated areas, there is a risk that certain members of the Group are responsible for the related costs. Further, there is no evidence of radon surveys or radon management structures in relation to several Properties. If and to the extent future radon investigations show elevated radon concentrations, the property owner would be liable for corrective measures to the extent such costs are not borne by the tenants. The contamination may also restrict the use of the Properties. The above claims, and the restriction of the use of the Properties, may have an adverse effect on the Issuer's operations, results and financial position.

Risks relating to contaminated soil

Soil contamination has been identified in the soil of the Property owned by Koomanni Oy and there is a risk that soil contamination may be identified in the soil of approximately five to ten of the Group's Properties other than the Property owned by Koomanni Oy. If the purpose of use of such contaminated Properties is changed to a more sensitive one, the Group may incur remediation costs, which would adversely affect the Group's business and operations.

Indoor air issues

There have been indoor air issues in respect of certain mutual real estate companies ("MRECs") owning Properties. The respective MRECs could potentially incur relevant high costs of remedial action relating to indoor air issues, which may not be recoverable from the tenants, as well as suffer a loss resulting from possible rent reductions attributable to the indoor air issues or related renovations. In a worst case scenario, indoor air issues may entitle the relevant tenants to rescind the relevant Lease Agreement. The abovementioned issue may cause the Group to incur higher remediation costs which would adversely affect the Group's business and operations.

Financial risks

High level risk

Refinancing risk

The Group has, apart from the Notes, incurred financial indebtedness under, including but not limited to, (i) certain bank loans, which as per the financial year ended 31 December 2020 amounted to an aggregated amount of approximately EUR 622,505,000, (ii) a senior unsecured floating rate bond loan in an initial total aggregate amount of approximately EUR 135,000,000 within a framework of EUR 175,000,000 due 2023 and (iii) a senior unsecured floating rate green bond loan in an aggregate amount of approximately SEK 600,000,000 due 2023. There is a risk that the Group will be required to refinance some or all of its outstanding debt, including the Notes, in order to be able to continue the operations of the Group. The Issuer's ability to successfully refinance its debt depends on, among other things, conditions of debt capital markets and its financial condition at such time. Even if debt capital markets are open, there is a risk that the Issuer will not have access to financing on favourable terms, or at all. Should the Issuer be unable to refinance its debt obligations on favourable terms, or at all, it would have a significant negative effect on the Group's business, financial condition and result of operation and on the Noteholders' recovery under the Notes.

Medium level risks

Borrowing by the Group and interest risk

The Group has incurred, and may further incur, financial indebtedness to finance its business operations. The financial indebtedness, including the Notes, and any future financing arrangements of the Group may generate interest costs which may be higher than the gains produced by the investments made by the Group. Borrowing money to make investments will increase the Group's exposure to the loss of capital and higher interest expenses. Further, the Group is exposed to changes in interest rates through its financing agreements that carry floating rates of interest. Interest rates are affected by a number of factors that are beyond the control of the Group, including but not limited to, the interest rate changes by central banks and fiscal policy measures by governments.

As per the financial year ended 31 December 2020, the Group's bank loans had an average weighted variable interest margin of 1.7 per cent. plus three month EURIBOR or three month STIBOR (as applicable, depending on the currency) and a weighted average tenor of 2.9 years. The Group's senior unsecured bond loans have an interest rate of three month EURIBOR plus a margin of 4.5 per cent. and three month STIBOR plus a margin of 4.25 per cent., respectively, and will mature in September and June 2023, respectively.

The consolidated financial statement of the Group for the financial year ended 31 December 2020 contains a sensitivity analysis commenting that if interest rates on borrowings had been 1 per cent. higher, with all other variables held constant, the estimated profit before tax for the financial year

would have been EUR 3,529,000 lower. If the increase in the interest rate had been 2 per cent. higher, the estimated effect on the profit before tax would have been EUR 7,892,000 lower.

There is a risk that the increase in interest rates would entail an increase in the Group's interest obligations, which would have a significant negative effect on the Group's business, financial position and result of operation.

Further, certain existing financial arrangements in the Group contain undertakings which, if breached and not waived, could result in such existing financing being accelerated and becoming due and payable. In particular, there are cross-default clauses in the existing financing of the Issuer stating, *inter alia*, that if any financial indebtedness of the Group (including the Notes (as applicable)) is declared to be or otherwise becomes due and payable prior to its specified maturity it constitutes an event of default under the existing financing. An obligation to prepay any existing financing could have an adverse effect on the Group's operations, financial position and results.

Security over assets granted to third parties

Subject to the terms of its existing financing from time to time, the Issuer has, and may incur additional, financial indebtedness and provide additional security for such indebtedness. The Group has granted security under the current debt facilities including security over, *inter alia*, property mortgage certificates, shares, accounts, intragroup loans, and rental income. As security has been granted in favour of a third-party debt provider, and may be granted to additional debt providers, the Noteholders will, in the event of bankruptcy, re-organisation or winding-up of the Issuer, be subordinated in right of payment out of the assets being subject to security provided to such third-party debt providers. In addition, if any such third-party debt provider holds security provided by the Group were to enforce such security due to a default by any company within the Group under the relevant finance documents, such enforcement would have a material adverse effect on the Group's assets, operations and financial position, and the rights of the Noteholders to receive payments under the Notes.

Ability to service debt

The Issuer's ability to service its debt (including under the Notes) will depend upon, among other things, the Group's future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond the Group's control. If the Group's operating income is not sufficient to service its current or future indebtedness, the Group will be forced to take actions such as reducing or delaying its business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing its debt or seeking additional equity capital. There is a risk that the Group will not be able to affect any of these remedies on satisfactory terms, or at all. This would have a significant negative effect on the Group's operations, earnings, results and financial position.

Low level risks

Risks related to currency

The Group has a multi-national business model and the reporting currency for the Issuer is EUR. The Group's primary operations and cash flows are typically denominated in EUR and SEK. The Group tries to match the currency for its assets and liabilities. As per the financial year ended 31 December 2020, the Group had not entered into any currency derivative or hedging arrangement. However, for the assets denominated in SEK approximately 60 per cent. of the assets are matched, whereas 40 per cent. remain unmatched, since these assets have been acquired with equity. Therefore, the Group is exposed to fluctuations between SEK and EUR. Furthermore, the Group sees potential to enter into new markets, for instance Denmark and Norway. Should the Group enter into these markets, or into

one of these markets, the Group may be exposed to additional currencies as a consequence of the Geographical expansion of its business operations.

The Issuer is depending on other companies within the Group

All of the Group's assets and revenues relate to the Issuer's direct and indirect subsidiaries. The Issuer is thus dependent upon receipt of sufficient income and cash flow related to the operations of the subsidiaries. Consequently, the Issuer is dependent on the subsidiaries' availability of cash and their legal ability to pay management fees and make dividends. The subsidiaries are legally distinct from the Issuer and have no obligation to make payments to the Issuer of any profits generated from their business. The ability of the subsidiaries to make payments to the Issuer is restricted by, among other things, the availability of funds, corporate restrictions and legal restrictions (e.g. limitations on value transfers). The Group or its assets may not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In addition, defaults by, or the insolvency of, certain subsidiaries of the Group could result in the obligation of the Group to make payments under parent company financial or performance guarantees in respect of such subsidiaries' obligations or the occurrence of cross defaults on certain borrowings of the Group. Should the Issuer not receive sufficient income from its subsidiaries, there is a risk that the Noteholders' ability to receive interest payments and the Group's financial condition may be adversely affected.

RISKS RELATING TO THE NOTES

Risks related to the nature of the Notes

Medium level risks

The Noteholders are exposed to credit risks

Investors in the Notes assume a credit risk towards the Group. The payments to Noteholders under the applicable Loan Terms are therefore dependent on the Issuer's and the Group's ability and willingness to meet its payment obligations, which in turn is largely dependent upon the performance of the Group's operations and its financial position. The Group's financial position is affected by several factors, some of which have been mentioned above. An increased credit risk may cause the market to charge the Notes a higher risk premium, which would have an adverse effect on the value of the Notes. Another aspect of the credit risk is that a decline in the financial position of the Group may reduce the prospects of the Group to receive debt financing at the time of the maturity of the Non-Subordinated Notes, which may have an adverse effect on the Noteholders' right to receive payment under such Notes.

Interest rate risks in relation to the Notes

Notes with floating rate interest

The value of Notes issued with a floating interest rate depends on several factors, one of the most significant over time being the level of market interest. Notes issued with a floating interest rate bear interest at a floating rate of e.g. 3 month of the relevant interest-rate benchmarks (being either CIBOR, EURIBOR, NIBOR or STIBOR) plus a margin and the interest rate of such Notes is determined two business days prior to the first day of each respective interest period. Hence, the interest rate of Notes issued with a floating rate is to a certain extent adjusted for changes in the level of the general interest rate. There is a risk that an increase of the general interest rate level will adversely affect the value of Notes issued with a floating rate interest. The general interest level is to a high degree affected by the Swedish and the international financial development and is outside the Group's control.

Notes with fixed rate interest

The value of Notes issued with a fixed interest rate depends on several factors, one of the most significant over time being the level of market interest. There is a risk that the market price of Notes issued with a fixed rate interest may be negatively affected as a result of changes in the level of market interest rates. The general interest level is to a high degree affected by the international financial development and is outside the Group's control. Generally, longer term of the Notes entails a higher risk that the value of the Notes may be adversely affected should the general interest rate level increase over time.

Currency risks

The Notes will be denominated and payable in DKK, EUR, NOK or SEK. If Noteholders measure their investment return by reference to a currency other than DKK, EUR, NOK or SEK (as applicable), an investment in the Notes will entail foreign exchange-related risks due to, *inter alia*, possible significant changes in the value of DKK, EUR, NOK or SEK (as applicable) relative to the currency by reference to which Noteholders measure the return on their investments. Furthermore, payments from the relevant CSD to the Noteholders under the Notes will be made in the currency the relevant Notes are denominated in. If a Noteholder would not be able to receive payments in that currency, the relevant payment will be exchanged into the currency such Noteholder can receive payments in, which may entail an exchange rate risk for Noteholders. This could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss to Noteholders when the return on

the Notes is translated into the currency by reference to which the Noteholders measure the return on their investments. As a result, there is a risk that Noteholders may receive less interest or principal than expected, or no interest or principal.

Low level risks

Benchmark Regulation

Interest payable on Notes with a floating interest rate will be calculated by reference to the relevant interest rate benchmark. The process for determining CIBOR, EURIBOR, NIBOR or STIBOR and other interest-rate benchmarks is subject to an on-going reform process that has already resulted in a number of legislative acts and other regulations. Some of these acts and regulations have already been implemented whilst some are set to be implemented in the near future. The most extensive initiative in this respect to date is the Benchmark Regulation (Regulation (EU) 2016/1011 of the European parliament and of the council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014). The Benchmark Regulation came into force on the 1 January 2018. The Benchmark Regulation addresses the provision of benchmarks, the contribution of input data to benchmarks and the use of benchmarks within the European Union. The effect of the Benchmark Regulation cannot yet be fully determined due, among other things, to the limited time period that the regulation has been applicable. However, there is a risk that the Benchmark Regulation will affect how certain benchmarks are determined and how they develop in the future. This could, for example, lead to increased volatility regarding some benchmarks. A further potential risk is that increased administrative requirements, and resulting regulatory risk, may discourage stakeholders from participating in the production of benchmarks, or that some benchmarks cease to be provided. If this would happen in respect of a benchmark that is used for the Notes, it could potentially have negative effects for the Noteholders.

Risks relating to benchmark replacement

Pursuant to the General Terms and Conditions, the relevant interest rate benchmark for the Notes may be replaced, from time to time, (i) upon the occurrence of an Interest Base Event or (ii) if an Interest Base Announcement has been made and the announced Interest Base Event will occur within six months. There is, however, a risk that a replacement of the relevant interest rate benchmark may lead to that Noteholders receive less interest than expected under the relevant Notes, or that no Successor Interest Base or (if there is no Successor Interest Base) Alternative Interest Base can be determined at the relevant time, which could have adverse effects for the Noteholders.

Risks relating to Green Notes

Notes issued as Green Notes are defined as Green Notes according to the Issuer's green notes framework as it is worded on the issue date of the relevant Green Notes. The Issuer's green notes framework, as well as market practice for green notes, may be amended and develop after the relevant issue date of the Green Notes, thus affecting any of the requirements applicable to the Issuer in respect of any subsequent Green Notes. Amendments to the Issuer's green notes framework after the relevant issue date of any Green Notes will not affect the conditions applicable to the Notes issued as at the relevant issue date prior to such amendments. The Issuer's failure to comply with its green notes framework does not constitute an event of default under any Loan Terms, and would not permit Noteholders to exercise any early redemption rights or receive any other type of compensation for non-compliance with the Issuer's green notes framework. Hence, there is a risk that expectations of investors, insofar such expectations are related to the compliance with the Issuer's green notes framework, are not met. Changes in the Issuer's green notes framework may have an adverse effect on the Issuer's operations and financial position.

Risks relating to any credit rating of the Notes

The Issuer may in the future seek a rating from one or more independent credit rating agencies for the purpose of facilitating issuances of additional debt instruments on the capital markets in the future. There is a risk that the Group will not be able to procure such rating, or that such potential rating may be lower than expected, or downgraded at a later stage, each of which could result in that it will be more difficult for the Issuer to pursue its financing strategy, which in turn could have an adverse effect on the Issuer's operations and financial condition.

Risks related to Non-Subordinated Notes

Medium level risk

Risks related to early redemption and partial repayment of the Non-Subordinated Notes

Under the applicable Loan Terms for each Loan, the Issuer may redeem all outstanding Non-Subordinated Notes under a relevant Loan before the final redemption date. If such Non-Subordinated Notes are redeemed before the final redemption date, the Noteholders of such Non-Subordinated Notes have the right to receive an early redemption amount which exceeds the nominal amount in accordance with the relevant Loan Terms. However, there is a risk that the market value of such Non-Subordinated Notes is higher than the early redemption amount (including the premium) and that it may not be possible for Noteholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the relevant Non-Subordinated Notes and may only be able to do so at a significantly lower rate.

Low level risk

Put option

Pursuant to the General Terms and Conditions, the Non-Subordinated Notes are subject to prepayment at the option of each Noteholder (put option) if:

- (i) an event or series of events occur whereby one or more persons acting together, acquire control over the Issuer and where control means (a) acquiring or controlling, directly or indirectly, more than 50 per cent. of the voting shares of the Issuer, or (b) the right to, directly or indirectly, appoint or remove the whole or a majority of the directors of the board of directors of the Issuer; or
- (ii) an event occurs whereby (a) the Issuer's shares are delisted from Nasdaq Stockholm or any other MTF or regulated market, or (b) trading of the Issuer's shares on the aforementioned MTF or regulated market is suspended for a period of 15 consecutive business days.

There is, however, a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Non-Subordinated Notes which would adversely affect the Issuer, e.g. by causing insolvency or an event of default under the General Terms and Conditions, and thus adversely affect all Noteholders and not only those that choose to exercise the option.

Risks related to Subordinated Notes

Medium level risks

Subordinated Notes have no maturity date

Notes issued as Subordinated Notes are perpetual, meaning that the Subordinated Notes have no specified maturity date. The Issuer is not obliged to redeem the Subordinated Notes at any time and the Noteholders have no option to redeem the Subordinated Notes at any time. The Issuer may only redeem the Subordinated Notes in the circumstances described below in "*Redemption and repurchase of Subordinated Notes*". Therefore, there is a risk that Noteholders may be required to bear financial risks of the investment in the Subordinated Notes for a long period of time and may not recover their investment before a redemption of the Subordinated Notes (if any) at the discretion of the Issuer (in particular if there is no active trading on the secondary market). There is a risk that each Noteholder may lose the whole, or parts of, its investment in the event the Issuer chooses not to redeem the Subordinated Notes.

Risks related to redemption and repurchase of Subordinated Notes

Upon the occurrence of an Accounting Event, a Rating Event, a Substantial Repurchase Event, a Tax Event, a Withholding Tax Event, or any combination of the foregoing, or a Change of Control Event, the Issuer may redeem all, but not some only, of the Subordinated Notes, together with any Deferred Interest and any accrued but unpaid interest on such Subordinated Notes. However, the occurrence of any of these events do not entitle any of the Noteholders to enforce and accelerate the Subordinated Notes.

In addition, the Issuer may elect to redeem the Subordinated Notes in whole, but not some only, on the relevant call dates as specified in the applicable Loan Terms for the relevant Loan and at a price as specified in the applicable Loan Terms of such Loan. Furthermore, the Issuer and/or any Group Company may, subject to restrictions in accordance with the applicable Loan Terms, at any time and at any price purchase Subordinated Notes on the market or in any other way, and Subordinated Notes held by a Group Company may at such Group Company's discretion be retained, sold or, if held by the Issuer, cancelled, provided that the aggregate principal amount of the Subordinated Notes under a Loan subject to such cancellation represents 80 per cent. or more of the aggregate principal amount of the Subordinated Notes issued under such Loan.

If the Subordinated Notes are redeemed, the Noteholders have the right to receive a redemption amount as specified in the applicable Loan Terms of the relevant Subordinated Notes, which may exceed the nominal amount of the Subordinated Notes. However, there is a risk that the market value of the Subordinated Notes is higher than the redemption amount and that it may not be possible for Noteholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the Subordinated Notes and may only be able to do so at a significantly lower rate.

Deferral of interest under the Subordinated Notes

The Issuer may at any point and at its own discretion, elect to defer any Interest Payment, in whole or in part, which is otherwise scheduled to be paid on an Interest Payment Date (except on any Interest Payment Date on which the Subordinated Notes are to be redeemed) for Subordinated Notes by giving notice to the Noteholders, the Agent and the Issuing Dealer before the relevant Interest Payment Date. Should interest on any Subordinated Notes be deferred in accordance with the General Terms and Conditions, the Issuer has no obligation to make such payment on the relevant Interest Payment Date. Furthermore, any such non-payment of interest does not constitute a default or any other breach of obligations under the Subordinated Notes.

Any Deferral of Interest Payments may have an adverse effect on the value and market price of the Subordinated Notes. The availability to defer interest may also result in that the market price for the Subordinated Notes is more volatile than otherwise would be the case for market prices of other securities in respect of which interest accrues over pre-determined interest periods. In addition, the possibility to defer Interest Payments may expose the Noteholders to fluctuations in the Issuer's

financial position and may result in that the yield of the Subordinated Notes are less foreseeable for Noteholders.

The Subordinated Notes represents deeply subordinated debt obligations

The Subordinated Notes represents deeply subordinated debt obligations of the Issuer. Should the Issuer be subject to e.g. bankruptcy, re-organisation, winding-up or any other bankruptcy or insolvency proceedings, the Noteholders would normally have a right to receive payment after all other creditors of the Issuer has been paid in full. Hence, should any of these events occur, the Noteholders' claims for the principal amount of their Subordinated Notes and any accrued and unpaid interest thereon will rank *pari passu* with any present or future claims in respect of obligations of the Issuer in relation to Parity Securities in accordance with the General Terms and Conditions. Furthermore, Noteholders' claims of payment in respect of Subordinated Notes will rank junior in right of payment to any present or future claims of all unsubordinated obligations of the Issuer and all Subordinated Indebtedness. In relation to an Issuer Winding-up, the Noteholders' of Subordinated Notes claims will rank in priority to all present future claims in respect of the shares of the Issuer and any other obligation of the Issuer expressed to rank junior to the Subordinated Notes or any Parity Securities.

In the event of a shortfall of funds upon the occurrence of an Issuer Winding-up and/or bankruptcy, re-organisation or winding-up or any other bankruptcy or insolvency proceedings of the Issuer, there is a risk the relevant Noteholders may lose all or most of its investment in the Subordinated Notes and that a Noteholder may not receive any return of the principal amount nor any accrued but unpaid interest (including any Deferred Interest). Due to such subordination, payments to a Noteholder will, upon the occurrence of any of these events as described in the General Terms and Conditions, only be made after all obligations of the Issuer resulting from higher ranking claims have been satisfied. There is a risk that a Noteholder of Subordinated Notes may recover less than holders of unsubordinated or other subordinated liabilities of the Issuer that are ranking senior to the Subordinated Notes.

Noteholders of the Subordinated Notes have very limited rights in relation to the enforcement of payments on the Subordinated Notes

The Noteholders of Subordinated Notes rights of enforcement in respect of payments under the Subordinated Notes are subject to significant limitations. If a default is made by the Issuer for a period of 30 days or more in relation to the Issuer's payment of any interest, principal or premium in respect of the Subordinated Notes which is due and payable, the rights of such Noteholders in respect of the Subordinated Notes are limited to instituting proceedings for an Issuer Winding-up, and the relevant Noteholders may prove and/or claim in respect of the Subordinated Notes in an Issuer Winding-up. In addition, the relevant Noteholders of Subordinated Notes shall not be entitled to accelerate payments of interest or principal under the Subordinated Notes in any circumstance outside an Issuer Winding-up, and, thus, there is a risk that such Noteholders may not recover their investment in the Subordinated Notes.

Whilst the claims of the relevant Noteholders of Subordinated Notes in an Issuer Winding-up are for the principal amount of such Noteholders' Subordinated Notes together with any Deferred Interest and any other accrued and unpaid interest, such claims will be subordinated as provided above under the "*The Subordinated Notes represents deeply subordinated debt obligations*", accordingly, claims in respect of the Subordinated Notes would rank junior to claims in respect of unsubordinated obligations of the Issuer in the event of an Issuer Winding-up. The Noteholders of Subordinated Notes shall not be entitled to accelerate payments of interest or principal under the Subordinated Notes in any circumstances outside an Issuer Winding-up.

Furthermore, whilst the relevant Noteholders may institute other proceedings against the Issuer to enforce the applicable Loan Terms of such Subordinated Notes, the Issuer shall not, by virtue of such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it. Accordingly, such Noteholders' rights of enforcement in respect of payments under the Subordinated Notes are very limited.

Accounting risks relating to the treatment of the Subordinated Notes

The Subordinated Notes are treated as equity pursuant to the applicable accounting principles of the Issuer (initially being IFRS), and consequently, the Subordinated Notes will not be accounted as financial liabilities. If changes were to be made to the relevant accounting principles, after which the Subordinated Notes would no longer be treated as equity and be classified as financial liabilities of the Issuer, this could have an adverse effect on the Group's financial position due to an increase in financial liabilities of the Issuer. In addition, such change in accounting standards may trigger the occurrence of an Accounting Event, which could lead to the redemption of the Subordinated Notes. If this risk would materialise, it could have negative effects for the Noteholders.

Risks related to the Noteholders' rights and representation

Low level risks

The rights of the Noteholders depend on the Agent's actions and financial standing

By subscribing for, or accepting the assignment of, any Note, each Noteholder has accepted the appointment of the agent (initially being Nordic Trustee & Agency AB (publ)) (the "**Agent**") to act on its behalf and to perform administrative functions relating to the Notes. The Agent shall have, among other things, the right to represent the Noteholders in all court and administrative proceedings in respect of the Notes. However, the rights, duties and obligations of the Agent as the representative of the Noteholders are subject to the provisions of the General Terms and Conditions, and there is no specific legislation or market practice in Sweden (under which laws the General Terms and Conditions are governed) which govern the Agent's performance of its duties and obligations relating to the Notes. There is a risk that a failure by the Agent to perform its duties and obligations properly or at all will have a negative effect on the enforcement of the rights of the Noteholders.

The Agent may be replaced by a successor Agent in accordance with the General Terms and Conditions. Generally, the successor Agent has the same rights and obligations as the retired Agent. It may be difficult to find a successor Agent with commercially acceptable terms or at all. Further, there is a risk that the successor Agent would breach its obligations under the above documents or that insolvency proceedings would be initiated against it.

There is a risk that materialisation of any of the above risks will have a negative effect on the enforcement of the rights of the Noteholders and the rights of the Noteholders to receive payments under the Notes.

No action against the Issuer and Noteholders' representation

In accordance with the General Terms and Conditions, the Agent represents all Noteholders in all matters relating to the Notes and the Noteholders are prevented from taking unilateral actions against the Issuer or any other member of the Group. Consequently, individual Noteholders do not have the right to take legal actions to declare any default by claiming any payment from or enforcing any security granted by the Issuer or any other member of the Group and may therefore have no effective legal remedies unless and until a requisite majority of the Noteholders agree to take such action. However, there is a risk that an individual Noteholder may take unilateral action against the Issuer or any other Group Company (in breach of the General Terms and Conditions). This would adversely

affect an acceleration of the Notes or other actions against the Issuer or any other member of the Group.

To enable the Agent to represent Noteholders in court, the Noteholders and/or their nominees may have to submit separate written powers of attorney for legal proceedings. If the Noteholders fail to submit such a power of attorney this could have a negative effect on the legal proceedings. Under the General Terms and Conditions, the Agent will in some cases have the right to make decisions and take measures that are binding upon all Noteholders. Consequently, the actions of the Agent in such matters would impact a Noteholder's rights under the General Terms and Conditions in a manner that could be undesirable for some Noteholders.

Noteholders' meetings and written procedures

The General Terms and Conditions includes certain provisions regarding Noteholders' meetings and written procedures. Such meetings or written procedures may be held in order to decide on matters relating to the Noteholders' interests. The General Terms and Conditions allows for stated majorities to bind all Noteholders, including Noteholders who have not taken part in the meeting or written procedure and those who have voted differently to the required majority at a duly convened and conducted Noteholders' meeting or written procedure. Consequently, the actions of the majority in such matters could impact a Noteholder's rights in a manner that would be undesirable for some of the Noteholders.

Amendments to the Issuer's green notes framework made after the issue date for a particular Loan will not apply to Noteholders under that Loan. DESCRIPTION OF THE GROUP

History and development

Cibus Nordic Real Estate AB (publ) was incorporated on 23 November 2017 and is a Swedish public limited liability company operating under the laws of Sweden with reg. no. 559135-0599. The Company's legal entity identifier (LEI) is 549300PW36MFK96GCR23.

The registered office and headquarters of the Company is Kungsgatan 56, 111 22 Stockholm, with telephone number +46 708 580 453. The website of the Company is cibusnordic.com. The information on the website does not form part of the Prospectus unless that information is incorporated by reference into the Prospectus.

In accordance with the articles of association of the Company, adopted on 24 April 2020, the objects of the Company are to directly or indirectly own and manage intangible property whose main orientation is trade.

Business and operations

The Company is focused on acquiring, refining and developing high quality properties in the Nordic region, with reputable daily goods and supermarket chains as anchor tenants, to provide stable, cyclically resilient and increasing dividends for the Company's shareholders. The Portfolio shall be optimised in an operational and a cash flow perspective, through an active property management, market intelligence and close tenant relationships. The Portfolio is currently located in various growth regions across Finland and Sweden, and the portfolio is to a large extent located in regions with healthy population growth. As per 31 March 2021, the Company owns a portfolio of 178 properties in Finland, with approximately 625,000 square metres of lettable area and a portfolio of 112 properties in Sweden, with approximately 120,000 square metres of lettable area. The Swedish Portfolio consists of 3 site leasehold rights (*Sw. tomträtter*) and 111 properties directly owned by the Group. More than 90 per cent. of the total rental income of the Properties is derived from Properties anchored by four, in the Group's opinion, market leading tenants, being Kesko, Tokmanni, Coop and S-Group.

The value of the Portfolio is, as per 31 March 2021, approximately EUR 1,270,000,000 and comprises approximately 744,000 square metres of lettable area.

Sustainability is an integral part of the Group's daily operations and business strategy. In the acquisition and management of properties, the Group has the ambition to work in a way that best stimulates sustainable development for both tenants and living local communities as well as for the long-term profit development for shareholders. The Company aims to provide environmentally adapted premises for its tenants, developed with the minimum possible use of resources and the least possible environmental impact. Continuous efforts are made by the Group to minimise the direct and indirect climate footprint of the property portfolio. The Group can, through various means, stimulate tenants to reduce their climate footprint, despite the fact that the Properties are leased on contracts exclusive of heating and water, meaning that the Group does not control the tenants electricity consumption. An example of such a tool is to meet tenants' requests for permits regarding re-development and extension of the properties to facilitate investments in renewable energy. At present, about 15 of the properties leased to Tokmanni have had photovoltaic facilities installed on the roof. In line with lower investment costs for solar energy, however, the proportion is expected to increase, thereby reducing electricity consumption. In its green bonds framework issued in May 2020, the Company has also identified a number of environmental targets to implement in the future.

Strategy and vision

The Company's core business strategy is to create long-term growth and value gains through the acquisitions, development and management of high-quality properties in the Nordic region with a clear focus on properties anchored by daily-goods chains. The main goal of the Company's business concept is to secure and maintain the portfolio's solid cash flow, through active asset management with high cost control, to thereby allow for profitability irrespective of economic conditions. The Company will also strive to maintain tenants with strong creditworthiness and leading market positions and the Company endeavours to enter into long-term leases and to retain the diversified lease duration for the Company's existing leases. The Company aims to expand its business in Finland and Sweden but also to in the future expand into the Danish and Norwegian markets. To preserve the Company's balanced, but niched portfolio strategy, the Company has decided on a clear investment strategy. The Company aims to deliver a high and non-cyclic dividend level to its shareholders, achieved through a stable profitability in the underlying Portfolio. The Company's vision is to strengthen its' position as one of the market leading property companies with focus on grocery and daily-goods store anchored properties.

Group Structure

Finnish real estate companies

There are two kinds of real estate companies in Finland, ordinary real estate companies ("RECs") and mutual real estate companies ("MRECs").

A REC is a limited liability company the purpose of which is to own and manage a property. The assets of a REC consist mainly of (i) a freehold or a leasehold property and (ii) one or more buildings located thereon. The property and the buildings may be leased out by the REC itself, and the respective rental income shall be paid to the REC in its capacity as the landlord under the lease agreement(s). The REC is in principle liable for all maintenance of the property and the buildings as well as for renovation work unless otherwise agreed e.g. with the tenant(s).

An MREC is a limited liability company and, similarly to a REC, its assets principally comprise of a freehold or a leasehold property and any buildings located thereon. The main distinction from a REC lies within the control structures of the MREC's assets (i.e. the property and the building). Despite the fact that an MREC owns the land areas and the buildings, the MREC's shareholders have direct control over them as defined in the MREC's articles of association. Common areas (e.g. hallways and reception areas) belonging to the real property are often left to the control of the MREC. The shareholders of an MREC are entitled to lease out the premises within their possession and, consequently, the respective rental income is generated to a vast extent on the shareholder level. The actual role of the MREC is generally limited to the maintenance and operation of the property, financed by maintenance charges collected from the shareholders. The maintenance charge is normally determined by the annual shareholders' meeting as a fixed amount per square meter for all premises. As a general rule, the maintenance charges are determined in order to leave the MREC with neither a profit nor a loss for tax purposes.

- (viii) any Financial Indebtedness of a Group Company is not paid when due nor within any originally applicable grace period, or is declared to be or otherwise becomes due and payable prior to its specified maturity as a result of an event of default (however described) provided that no Event of Default will occur under this Clause 16 if the aggregate amount of Financial Indebtedness referred to herein is less than EUR 2,500,000 or is owed to a Group Company;

- (ix) the Issuer or any other Group Company ceases to carry on its business, except if due to (i) a merger or demerger permitted under Clause 16.1(a)(x), or (ii) a disposal permitted under Clause 15.3 (*Disposal of Assets*), if such discontinuation is likely to have a Material Adverse Effect on the ability of the Issuer to perform its obligations under the Loan Terms;
 - (x) a decision is made that any Group Company shall be demerged or merged into a company which is not a Group Company if such merger or demerger is likely to have a Material Adverse Effect, provided that a merger involving the Issuer, where the Issuer is not the surviving entity, shall always be considered an Event of Default and provided that the Issuer may not be demerged; or
 - (xi) any expropriation, attachment, sequestration, distress or execution or any analogous process in any jurisdiction affects any asset or assets of any Group Company having an aggregate value of an amount equal to or exceeding EUR 2,500,000 and is not discharged within 60 days.

 - (e) If the right to accelerate the Notes under a Loan is based upon a decision of a court of law or a government authority, it is not necessary that the decision has become enforceable under law or that the period of appeal has expired in order for cause of acceleration to be deemed to exist.

- (f) If the Notes under a Loan are declared due and payable in accordance with this Clause 16, the Issuer shall redeem all such Notes with an amount per Note equal to 101 per cent. of the Nominal Amount together with accrued but unpaid Interest.

- (c) The Agent (acting on the instructions of the Noteholders in accordance with the Loan Terms) may institute such proceedings against the Issuer as it may think fit to enforce any term or condition binding on the Issuer under the Subordinated Notes but in no event shall the Issuer, by virtue of the institution of any such proceedings, be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.
- (d) No remedy against the Issuer, other than as referred to in this Clause 16.2, shall be available to the Agent and the Noteholders, whether for the recovery of amounts owing in respect of the Subordinated Notes or in respect of any breach by the Issuer of any of its other obligations under or in respect of the Subordinated Notes.

The Agent shall arrange for payments of such funds in accordance with this Clause 17 as soon as reasonably practicable.
- (d) If the Issuer or the Agent shall make any payment under this Clause 17, the Issuer or the Agent, as applicable, shall notify the Noteholders of any such payment at least 15 Business Days before the payment is made. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Note is owned by a Group Company or an Affiliate of a Group Company.
- (o) Information about decisions taken at a Noteholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Noteholders under the Loan and published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. 19. Noteholders' Meeting

- (a) The Agent shall convene a Noteholders' Meeting by sending a notice thereof to each Noteholder of the Loan no later than five Business Days after receipt of a request from the Issuer or the Noteholder(s) (or such later date as may be necessary for technical or administrative reasons). 23. Appointment and Replacement of the Agent

23.1 Appointment of Agent

- (a) By subscribing for Notes, each initial Noteholder appoints the Agent to act as its agent in all matters relating to the Notes and the Loan Terms, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these General Terms and Conditions) in any legal or arbitration proceedings relating to the Notes held by such Noteholder, including the winding-up, dissolution, liquidation, company reorganisation or bankruptcy (or its equivalent in any other jurisdiction) of the Issuer. By acquiring Notes, each subsequent Noteholder confirms such appointment and authorisation for the Agent to act on its behalf.
- (b) Each Noteholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Loan Terms. The Agent is under no obligation to represent a Noteholder which does not comply with such request.

- (c) The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Loan Terms.
- (d) The Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Loan Terms and the Agency Agreement and the Agent's obligations as Agent under the Loan Terms are conditioned upon the due payment of such fees and indemnifications.
- (e) The Agent may act as agent for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

23.2 Duties of the Agent

- (a) The Agent shall represent the Noteholders in accordance with the Loan Terms. However, the Agent is not responsible for the execution, validity, perfection or enforceability of the Loan Terms. The Agent shall keep the latest version of these General Terms and Conditions and the Final Terms available on the website of the Agent.
- (b) Upon request by a Noteholder, the Agent may distribute to the Noteholders under the Loan any information from such Noteholder which relates to the Notes under a Loan (at the discretion of the Agent). The Agent may require that the requesting Noteholder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent may upon request by a Noteholder disclose the identity of any other Noteholder who has consented to the Agent in doing so.
- (c) When acting in accordance with the Loan Terms, the Agent is always acting with binding effect on behalf of the Noteholders. The Agent shall carry out its duties under the Loan Terms in a reasonable, proficient and professional manner, with reasonable care and skill.
- (d) The Agent's duties under the Loan Terms are solely mechanical and administrative in nature and the Agent only acts in accordance with the Loan Terms and upon instructions from the Noteholders, unless otherwise set out in the Loan Terms. In particular, the Agent is never acting as an advisor (whether legal, financial or otherwise) to the Noteholders of any outstanding Loan or the Issuer and no opinion or advice from the Agent will be binding on the Noteholders.
- (e) The Agent is entitled to delegate its duties to other professional parties, but the Agent shall remain liable for the actions of such parties under the Loan Terms.

- (f) The Agent shall treat all Noteholders under a Loan equally and, when acting pursuant to the Loan Terms, act with regard only to the interests of the Noteholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other Person, other than as explicitly stated in the Loan Terms.
- (g) The Agent shall be entitled to disclose to the Noteholders of a Loan any event or circumstance directly or indirectly relating to the Issuer or the Notes. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Noteholders delay disclosure or refrain from disclosing certain information other than in respect of an Event of Default that has occurred and is continuing.
- (h) The Agent is entitled to engage external experts when carrying out its duties under the Loan Terms. The Issuer shall on demand by the Agent pay all costs for external experts engaged by it (i) after the occurrence of an Event of Default, (ii) for the purpose of investigating or considering (A) an event which the Agent reasonably believes is or may lead to an Event of Default or (B) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Noteholders under the Loan Terms, (iii) when the Agent is to make a determination under any Loan Terms, (iv) in connection with any Noteholders' Meeting or Written Procedure or (v) as otherwise agreed between the Issuer and the Agent. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the relevant Loan Terms shall be distributed in accordance with Clause 17 (*Distribution of Proceeds*).
- (i) The Agent shall enter into agreements with the CSD, and comply with such agreement and the CSD regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under any Loan Terms.
- (j) Notwithstanding any other provision of any Loan Terms to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- (k) If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Noteholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- (l) The Agent shall give a notice to the Noteholders (i) before it ceases to perform its obligations under any Loan Terms by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under such Loan Terms or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 23.2(k).

- (m) Unless it has actual knowledge to the contrary, the Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects. The Agent is not liable for information provided to the Noteholders by or on behalf of the Issuer or by any other Person.

23.3 Limited liability for the Agent

- (a) The Agent will not be liable to the Noteholders for damage or loss caused by any action taken or omitted by it under or in connection with any Loan Terms, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.
- (b) The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts engaged by the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Noteholders to delay the action in order to first obtain instructions from the Noteholders.
- (c) The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to any Loan Terms to be paid by the Agent to the Noteholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- (d) The Agent shall have no liability to the Noteholders for damage caused by the Agent acting in accordance with instructions of the Noteholders given in accordance with Clause 18 (*Decisions by Noteholders*) or a demand by Noteholders given pursuant to Clause 15.1.
- (e) Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, any Loan Terms shall not be subject to set-off against the obligations of the Issuer to the Noteholders under such Loan Terms.

23.4 Replacement of the Agent

- (a) Subject to Clause 23.4(f), the Agent may resign for all Loans made under this MTN Programme by giving notice to the Issuer and the Noteholders, in which case the Noteholders shall appoint a successor Agent at a Noteholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- (b) Subject to Clause 23.4(f), if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

- (c) A Noteholder (or Noteholders) representing at least ten per cent. of the Adjusted Nominal Amount of all outstanding Loans may, by notice to the Issuer (such notice may only be validly given by a Person who is a Noteholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Noteholders, be given by them jointly), require that a Noteholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Noteholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Noteholders that the Agent be dismissed and a new Agent appointed.
- (d) If the Noteholders have not appointed a successor Agent within 90 days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Noteholders, the Issuer shall within 30 days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- (e) The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Loan Terms of all outstanding Loans.
- (f) The Agent's resignation or dismissal shall only take effect upon the earlier of (i) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent, and (ii) the period pursuant to Clause 23.4(d)(ii) having lapsed.
- (g) Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Loan Terms of all outstanding Loans, but shall remain entitled to the benefit of the Loan Terms and remain liable under the Loan Terms in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the relevant Noteholders shall have the same rights and obligations amongst themselves under the respective Loan Terms as they would have had if such successor had been the original Agent.
- (h) In the event that there is a change of the Agent in accordance with this Clause 23.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Loan Terms of the outstanding Loans and the Agency Agreement. Unless the Issuer and the new Agent agrees otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

24. No Direct Actions by Noteholders

- (a) A Noteholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Loan Terms, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation or bankruptcy (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the liabilities of the Issuer under the Loan Terms. Such steps may only be taken by the Agent.
- (b) Clause 24(a) shall not apply if the Agent has been instructed by the Noteholders for the relevant Loan in accordance with the Loan Terms to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Noteholder to provide documents in accordance with Clause 23.1(b)), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Loan Terms or the Agency Agreement or by any reason described in Clause 23.2(k) such failure must continue for at least 40 Business Days after notice pursuant to Clause 23.2(l) before a Noteholder may take any action referred to in Clause 24(a).
- (c) The provisions of Clause 24(a) shall not in any way limit an individual Noteholder's right to claim and enforce payments which are due to it under Clause 10.4 (*Mandatory repurchase due to a Change of Control Event or a De-listing Event (put option)*) or other payments which are due by the Issuer to some but not all Noteholders.

25. Time-Bar

- (a) The right to receive repayment of the principal of Notes issued under the MTN Programme shall be time-barred and become void ten years from the relevant Maturity Date or Redemption Date (as applicable). The right to receive payment of Interest (excluding any capitalised Interest) shall be time-barred and become void three years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Noteholders' right to receive payment has been time-barred and has become void.
- (b) If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new time-bar period of ten years with respect to the right to receive repayment of the principal of the Notes, and of three years with respect to the right to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the time-bar period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
